

Quiz and Test Corrections Original Grade: _____ Corrections Grade: _____

Name _____ Due Date _____ Period _____

<p><u>Identify the error:</u></p> <ol style="list-style-type: none"> Rewrite the problem. Explain in complete sentences what it was about the problem caused you difficulties. <i>"I don't know"</i> is not a legitimate answer. 	<p><u>Demonstrate Understanding:</u></p> <ol style="list-style-type: none"> Show the solution. Show all steps and all work. Show how you checked your solution. 	<p><u>Test Understanding:</u></p> <ol style="list-style-type: none"> Write a similar problem (with the help of outside sources such as a textbook) Explain in complete sentences what you understand now that you did not understand before. 	<p><u>Make Corrections:</u></p> <ol style="list-style-type: none"> Show the solution to the new problem. Show all steps and work. Show how you checked your solution.
<p>Example:</p> <ol style="list-style-type: none"> Question #2: Solve and graph $2x - 3y = 6$. When working this problem, I forgot to distribute the negative sign. 	<ol style="list-style-type: none"> $2x - 3y = 6$ $\frac{-3y = -2x + 6}{-3 \quad -3}$ $y = 2/3x - 2$  $2x - 3(2/3x - 2) = 6$ $2x - 2x + 6 = 6$ $6 = 6 \checkmark$ 	<ol style="list-style-type: none"> Solve and graph $3x - 4y = 12$. When working this problem, I cannot rush through my work and make sure to distribute that negative. 	<ol style="list-style-type: none"> $3x - 4y = 12$ $\frac{-4y = -3x + 12}{-4 \quad -4}$ $y = 3/4x - 3$  $3x - 4(3/4x - 3) = 12$ $3x - 3x + 12 = 12$ $12 = 12 \checkmark$

<u>Identify the error:</u> <ol style="list-style-type: none">1. Rewrite the problem.2. Explain in complete sentences what it was about the problem caused you difficulties.	<u>Demonstrate Understanding:</u> <ol style="list-style-type: none">1. Show the solution. Show all steps and all work.2. Show how you checked your solution.	<u>Test Understanding:</u> <ol style="list-style-type: none">1. Write a similar problem (with the help of outside sources such as a textbook)2. Explain in complete sentences what you understand now that you did not understand before.	<u>Make Corrections:</u> <ol style="list-style-type: none">1. Show the solution to the new problem. Show all steps and work.2. Show how you checked your solution.
